How to help the Stars in your team join our Rising Stars constellation

Make time to chat to potential applicants about their personal development & career goals

Identify skills gaps between where they are now and what they want to achieve

Encourage them to research courses and training to bridge these gaps and help achieve their goals

Discuss training ideas together to make sure they're clear about course outcomes, so they can put together the best possible application when the time comes

Encourage them to **sign up to the Printing Charity newsletter** to keep up to date with Rising Star news and when 2024 applications open

I would say every company has to look at this process; it's a great, great opportunity to grow your staff.
