Next steps towards joining the Rising Star constellation

Consider where you see yourself moving to in your career, and the training that could help you get there

Speak to your manager, HR team, mentor or a trusted colleague about these personal development goals, and identify skills gaps between where you are now and where you would like to be

Discuss and research training and courses that could help bridge those gaps and achieve your goals, and make sure you're clear about course outcomes, so you can put together the best possible application when the time comes

Sign up to the Printing Charity newsletter to keep up to date with Rising Star news, receive helpful hints and tips, and know when applications open

I can't overstate how meaningful this has been to me – even aside from the training, the validation and recognition is a huge confidence boost that has come at a perfect moment.

– Carys Vickers, 2024 Winner
